Unique Solutions

This section represents instances where customers have come to us with unusual challenges, challenges that excited us and spurred us into a product design effort. Here you'll see a variety of eclectic offerings — original, beautifully designed, sturdy as Anthro-usual.

Solutions for very specific furniture challenges.

NEW Carl's Table®

We named it "Carl's Table" after our innovative Swedish partner who designed it to be more than just adjustable in the way it tilts and elevates. Carl's Table also has integrated lighting that reads the density of your screen images and then automatically adapts for you.

E.

F.

G.

E, F, G. Carl's Table's integrated lighting system makes it independent of existing light in the room. It has a sophisticated sensor on the control panel that automatically increases or dims the lights to maintain an appropriate contrast ratio between the image on the monitor and the surrounding light. This dramatically reduces eyestrain and fatigue. You can also control the lighting yourself by turning it to the manual setting.

H. A 28" tall panel shields you from distractions behind and to the side of your monitors so you can concentrate better. Its curved shape and interior fabric cover also absorbs sound and reduces glare.

I. Carl's Table is also ideal for non-medical applications like video editing. In addition to all the ergonomic comforts, Greg likes the ability to "cocoon" himself within the privacy shield and block outside light, noise and distractions.

A.

Basic Carl's Table.

H.

I.

B.

Productivity:
Have you considered what musculoskeletal injuries can cost you in lost income and productivity due to sick leave? When you work for long periods at a desk that does not address the proper positions of your body, you put yourself at a great risk for an expensive and painful illness.

Ergonomics:
Orthopedic surgeons and other work injury experts say a 90° angle in the arms and legs is the best when working at a desk. Carl's Table lets you raise and lower your work surface to a position that provides the best support and comfort for you.

D.

A. Carl's Table was designed to make you as comfortable as possible for as long as your day lasts. But more importantly, it was designed to reduce the risk of musculoskeletal stress like Carpal Tunnel Syndrome and neck strain.

B. With Carl's Table you can even completely recline while looking at your monitors . . . perfect for after lunch or late in the day. The main work surface, monitors, lights and privacy panel can be electrically tilted from 0° to 15°.

C, D. It's vital to vary your position as much as possible throughout the day. So Carl's Table has a motorized height adjustment from 28.5" to 48.5" so you can work sitting or standing with just the touch of a button.

C.

It's all part of the package.

Coffee Surface
As a non-tilting surface, the Coffee Surface is a great home for things you don't want tilting with the rest of the table – like coffee cups or telephones. It can be mounted left or right.

Footrest
Using this footrest helps alleviate pressure on your lower back. Mount it on the left or right, and swing it out of the way when not in use.

Power Strips
There are nine power outlets in the back for CPUs, monitors and other equipment. In the front there are four power outlets that you can easily access for equipment like PDAs and cell phone chargers.

CPU Holder
The CPU Holder keeps your hard drive out of the way and off the floor. And it can be mounted left or right. An optional second CPU holder can be added to the opposite side.

Monitor Arms
Mount up to four monitors on your Carl's Table. These arms were chosen for their purely horizontal motion so you can pull your monitors toward you without any vertical drift.

Task Lights
In addition to the back light, there are two LED task lights on flexible goosenecks that can be moved to where you need light the most.

Specifications

Carl's Table comes standard with two electrically controlled shelves (one monitor, one keyboard) and side shelf with height and tilt adjustments, one back privacy shield, two height adjustable legs, one footrest, one background light, two LED task lights, two control panels, one CPU holder, four monitor arms, one keypad surface, two power strips with 13 outlets and one 10 foot power cord with cable management sleeve.

- Electrical/mechanical has One Year Warranty. All other components are Five Year Warranty.
- Product ships partially assembled. A few standard tools are required to complete installation.

See page 94 for a complete list of accessories.

Changing the tilt when Carl's Table is in its lowest position will change the distance between the keyboard shelf and the floor (x" dimension listed above). 0° = 28.5"h; 5° = 26.75"h; 10° = 24.75"h; 15° = 22.85"h

Basic, Super, and Deluxe Seating

Complete your ergonomic workstation with a really comfortable chair. While we don't make these chairs, we've tested them all and can say without hesitation that they meet Anthro's requirements for quality and comfort.

A. – Basic Chair

B. – Super Chair

C. – Deluxe Chair

A. The seat angles forward and back, and the padded T-arms adjust up and down. The back features separate height and angle adjustments.

B. The seat back is taller than the "Basic" chair, a separate control slides the seat pad front to back, and the T-arms adjust up and down, in and out.

C. Everything but the kitchen sink! All the features of the "Super" chair, plus an even higher seat back with a padded, height-adjustable head rest. The padded T-arms adjust up and down, in and out, and pivot to allow easy access.

D. Tommie relaxes at the Super Chair he uses with his Elevate™ Wrap. Separate levers control the seat tilt, height, and horizontal position.

D.

Specifications

All chairs come standard with black fabric, vertical adjustable arms with soft pads, height range of 17" – 22" and a five-point 25" diameter black resin base with 55mm casters.

- Supports 300 lbs. Meets CAL 117 and BIFM F-1-1978 Flammability Codes.
- The cylinder has a Lifetime Warranty, parts have a Fifteen Year Warranty and fabric has a Two Year Warranty.
- Manufacturing lead time for the "Basic" and "Super" chairs is 2-3 business days. Lead time for the "Deluxe" chair is 10 business days.
- Minimal assembly required.

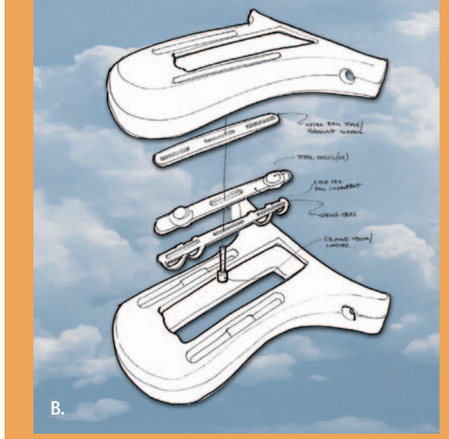
NEW Verté® Seating

If you spend a lot of time sitting, this is as good as it gets. The Verté Chair combines the latest in ergonomic seating with personalized comfort.

A.



B.

C.

Features

A. Feel Inspired
Imagine settling into a chair that molds itself to your spine's unique shape, fitting and holding you perfectly. That's the idea behind this revolutionary new Verté seating solution. It is an infinitely ergonomic, visually striking new design that uniquely balances form and function.

B. Develop Yourself
This patented Verté chair has been in development for over 10 years by a team of over 100 engineers, designers, doctors and manufacturers. From the start, it was intended to be more than just a stylish, supremely comfortable office chair. As a true orthopedic device, it's infinite adjustability and flexible, dual-vertebrae support system helps to ease pain and improves posture, actually teaching your spine to relax while seated.

C. Be Ergonomic
The striking shape of the sturdy Verté chair is built on 11 torsion spring-loaded bearing joints that take an exact spine impression, which can be locked in place at the touch of a lever. Just lean back into the soft, highly adjustable headrest pillow and program your ideal posture with a single touch of the patented Revo™ control. Over time, "muscle memory" takes over, and your posture improves naturally and permanently, improving circulation and your entire back structure.

Specifications

The Verte' chair comes standard with a gel-filled full grain leather seat and back, eleven torsion spring-loaded bearing joints with brushed aluminum back supports, three built-in levers for height and chair tilt, padded two-way adjustable head rest, adjustable and removable padded T-arms and brushed aluminum star base with five smooth rolling 60mm chrome casters.

- Supports 275 lbs. Meets CAL 117 and BIFM F-1-1978 Flammability Codes
- The cylinder has a Lifetime Warranty, parts have a Fifteen Year Warranty and fabric has a Two Year Warranty.
- Manufacturing lead time for the Verte' Chair is 6-8 weeks.
- Assembly required, socket set recommended.

NEW eNook®

Here's a gas station for your gadgets and a work space for you. This very multi-talented workstation has channels for you to plug in and charge all your gear. Flip it up to store your laptop and lock it out of sight. Or flip it down for a handy desk.

Basic eNook opened, with Cherry Wood and Blue Mica fabric...

Basic eNook closed, with Cherry Wood.

B.

A.

A. Ken put his eNook (shown in Maple Wood and Garnet fabric) in the entry so it's convenient for his family to drop off and pick up their electronics, get their mail and leave messages for each other on the laptop.

- Shelf (two), Part #: 336SM

B. Ruffles likes the way his new eNook fits in with the bright family room, right next to his couch. However, he's concerned that it was mounted way too high. His White eNook with Sage fabric has:

- Shelf (two), Part #: 336SM

C.

C. With three wood colors to choose from, eNook compliments the décor and adds a touch of contemporary design to any home. Shown here with Cherry Wood and Gold Star fabric.

- Shelf (two), Part #: 336SM

D. Kara uses her eNook as a Patient Information Station. It's so easy to enter the latest data, then flip it up, lock it and it's out of the way.

D.

E.

Features

E. Quality in the Details
eNook's shelf opens gently and safely with a damper. The sides of eNook are aluminum extrusion with a brushed texture and anodized with a stainless steel finish.

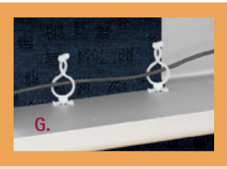
F, G. Keep it Neat
The bottom locking door conceals a six-outlet power strip and plenty of room for cords and cables. There are openings in the back panel if you want to mount an electrical outlet or internet connection behind your eNook. The shelves come with clips to keep cords and cables organized.

H. Lock it Up
One key fits both the flip-down desktop and the cord and cable area.

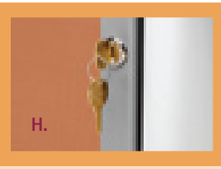
I. Stay Cool
The metal frame is vented on all four sides to keep it cool on the inside.

J, K. Add Shelves
The Accessory Shelf is sold separately to hold all your extra gadgets. Buy as many as four for your electronic devices. Remember to leave room to store your laptop. Each shelf is: 13"w x 5.5"h x 5"d.

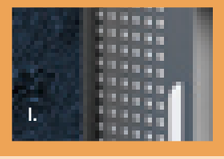
F.



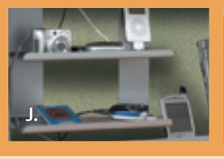
G.



H.



I.



J.

K.

Specifications

eNook comes with one back metal frame, one front frame with brushed aluminum, a fabric covered back panel, two locking membrane-pressed shelves, one power strip, and six cable clips. eNook's internal dimensions are 30.2"w x 5.1"d x 15.2"h.

- The main shelf can hold 30 lbs. eNook can hold 45 lbs. total.
- eNook has a Five Year Warranty. Patent pending.
- Product ships unassembled, with all the necessary tools.

B.

C.

A. Ruffles awaits the return of his owner near the Adjustable Laptop Cart in Bluestone. Use the solid casters to move the Cart where you work most comfortably, on a couch, chair or bed.

B. Jeff adds a Back Shelf to give him room to spread out. The Shelf features a convenient pass-through for cable management. Use the Lower Shelf to hold a printer or other small items.

- Shelf – Back, Part #: 591SM/BS
- Shelf – Lower, Part #: 592SM/BS

C. With a quick squeeze of the lever, Susan adjusts her Laptop Cart in Fog to a stand-up height (or any height in-between).

SpacePal

The short and tall SpacePals come in a variety of great colors! With its 19" rear width and 32" front width, it fits in your extra-small areas and tight corners. Fun accessories add pizzazz while organizing your gear.

Basic SpacePal in Ruby...

with optional CPU SideRack with Caster and Mouse Shelf – Clamp on.

A.

B.

A. With enough room to hold your computer and other peripherals, the compact Short SpacePal melds easily into corners to maximize the minimum space you have. This SpacePal is shown with:

- CPU SideRack with Caster, Part #: 564RU
- Keyboard Caddy, Part #: 432BC

B. Contemporary and space-saving, this Silver Metallic Tall SpacePal is a perfect complement for your home office. Use the upper shelf to hold your printer and the bottom shelf for storage. Includes:

- Shelf – Additional (below), Part #: 102SM/BC
- Document Tray, Part #: DTSM
- Mouse Shelf – Clamp-on, Part #: CMSSM

C. Personalize your SpacePal with:

- CPU SideRack with Caster, Part #: 564BL
- Document Tray, Part #: DTIN
- Mouse Shelf – Clamp-on, Part #: CMSSA
- Shelf – Additional (below), Part #: 102SM/BC
- Keyboard Caddy, Part #: 432BC

D. If his career as a video game player doesn't work out, Erik can fall back on his education and open his school books. An Additional Shelf below gives him a place to store his backpack for whenever the mood hits him. Shown with:

- Keyboard Caddy, Part #: 432BC
- Shelf – Additional (below), Part #: 102BL/BC

C.

D.

Specifications

The Short SpacePal comes standard with one main shelf, four legs with holes in 1" increments for variable shelf height, four shelf brackets, two base tubes, a rear bracket and four 2 3/8" soft rubber casters (front two locking).

The Tall SpacePal comes standard with two shelves, 20" Extension Tubes, four legs with holes in 1" increments for variable shelf height, eight shelf brackets, two base tubes, a rear bracket and four 2 3/8" soft rubber casters (front two locking).

- Holds up to 150 lbs.
- Product ships unassembled, with all the necessary tools.

Power Supply Cart

Meet the Power Supply Cart, the Cart for retail, warehouse and inventory management. It's a mobile battery solution that gives your hand-held scanners, printers and other equipment plenty of juice.

Basic Power Supply Cart.

A.

B.

C.

D.

A. Charge your Power Supply Cart quickly. Roll the Cart to your backroom or near an outlet and get charged overnight. Draws up to 5 amps of power from the outlet.

B. Marcus moves his label printer around the warehouse with a Power Supply Cart. The shelves below give him extra space to hold paper and other items.

C. Without being tethered to a wall outlet, Susan can move freely on the sales floor when she needs to do pricing and markdowns.

D. Susan moves the Power Supply Cart around easily on large 5" directional solid rubber casters. These casters are a breeze to roll around tight corners and go over uneven or bumpy surfaces.

Specifications

The Power Supply Cart comes standard with three shelves (two height-adjustable shelves made of industrial grade laminated particle board, one metal shelf), one metal center column with four 120V power outlets, power meter, two cable wraps, power switch, one 54 amp/hour power pack, and four 5" soft rubber casters (two total locking and two directional locking).

The Cart can power a laptop PC for approximately 8 hours and a desktop PC with a flat panel monitor for approximately 4 hours. It recharges overnight.

- Holds up to 100 lbs.
- The Power Supply Cart provides quasi sine wave power to your hardware. Some hardware may require pure sine wave power and will not work with Anthro's Power Supply Cart. Please check with your hardware manufacturer if you are unsure.
- Lifetime Warranty on the Cart and One Year on the power system. The cord, plug and batteries are not warranted.
- Product ships assembled.

See page 96 for a complete list of accessories.

Trolley

When you need to move equipment through tight spaces, this Cart is just the ticket. It's strong, versatile, and moves easily and smoothly wherever you need to go.

A.

Basic Trolley...

completed with optional Drawer – 3", Tray, and Base Shelf.

D.

B.

C.

Protect cords and keep them out of the way by routing them down the hollow leg channels and around the cable wrap.

A. With the cantilevered shelf of the Trolley, Barbara scoots right next to the bed so she can input the patient's information into her laptop. Shown here with:

- Shelf – Base, Part #: 648SM

B. Lanny added a Keyboard and Mouse Caddy to her Trolley so she can retract her keyboard when she's on the move. Her Cart includes:

- Shelf – Base, Part #: 648SM
- Flat Panel Monitor Mount – Single, Part #: 615SM
- Keyboard and Mouse Caddy – B, Part #: UKMCBK

C. Jose uses the tilt feature of the Flat Panel Monitor Mount to find the right monitor angle for him. He also uses extra Shelves and Drawers to hold everything he needs without increasing the small footprint of the Cart. He's added:

- Flat Panel Monitor Mount – Single, Part #: 615SM
- Keyboard and Mouse Caddy – B, Part #: UKMCLBK
- Shelf – Additional Wood, Part #: 427SM/LG
- Drawer – Small 3", Part #: 413SM
- Shelf – Base, Part #: 648SM

D. Mobile Trolleys keep up in any fast-paced environment. Kim uses a Trolley to hold her monitoring system. Large 5" directional casters roll easily in and out of elevators and around tight corners. She's added:

- Drawer – Small 3", Part #: 413SM
- Flat Panel Monitor Mount – Single, Part #: 615SM
- Shelf – Additional Metal, Part #: 654SM
- Shelf – Base, Part #: 648SM

Specifications

The Trolley comes standard with one top shelf (1" industrial grade particle board), handle, two legs, cable wrap, two base legs and four 5" casters (two directional locking and two total locking).

- Holds up to 150 lbs.
- Lifetime Warranty on the Trolley.
- Product ships unassembled, with all the necessary tools.

NEW Convoi™

Convoi gives a whole new meaning to "configurable". There is no basic model to start with – you are the designer from the floor up. Choose the frame, the types of shelves, your storage solutions and then accessorize. And don't underestimate this one. It holds up to 500 lbs!

A. Choose from two heights of base frames (29.5"h and 35.5"h) to configure Convoi for stand-up use. Use the roomy aluminum extruded legs to route your cords and cables inside. This 24" wide station includes:

- Keyboard and Mouse Caddy – A , Part #: 149SM
- Flat Panel Monitor Mount – Single, Part #: 615SM
- End Cap, Part #: BUEC
- Handle, Part #: BUHD
- Shelf – Metal, Part #: 24MSSM
- Shelf – Base Storage Shelf, Part #: 24IBSM
- Shelf – Wood, Part #: 24WSSM/BF

B. Convoi is strong enough to handle a heavy cash register easily and move it around smoothly on large 5" locking casters.

- Shelf – Cap, Part #: 30CSSM/BF
- Shelf – Wood, Part #: 30WSSM/BF
- Shelf – Base Storage, Part #: 301BSM

C. Designed with a cast aluminum base, Convoi is quite the weight lifter, holding up to 500 lbs. of heavy instruments. Shown with:

- Shelf – Cap, Part #: 24CSSM/BF

D. Even your most sensitive instruments, like the oscilloscope, will stay put and rest easy on your Convoi. Mount the shelves at any height you want on the legs. 30" wide Convoi, configured with:

- Shelf – Tilt, Part #: 30MTSM
- Shelf – Metal, Part #: 30MSSM
- End Cap, Part #: BUEC

A.

Extruded aluminum legs to route cords.

Strong, sturdy base.

Move with ease.

B.

C.

D.

E.

F.

E. One of the many healthcare uses of Convoi is as a medication cart. Drawers include anti-tip mechanics and ball bearing glides, making it a pleasure to use. Shown with:

- End Cap, Part #: BUEC
- Drawer – 4-Drawer Large Enclosure, Part #: 2422SM/BF
- Shelf – Base Storage, Part #: 24IBSM

F. The stable frame of Convoi keeps even the most sensitive equipment consistently reporting accurate data. The Metal Bin is a safe place to store items that might roll off the Cart. This 24" wide Convoi includes:

- Shelf – Cap, Part #: 24CSSM/BF
- Handle, Part #: BUHD
- Paper Tray, Part #: 325SM
- Shelf – Metal Bin, Part #: 24MBSM

Easy to Design in 4 Steps

Step One:
Start with a firm foundation
Choose a Basic Frame.

Step Two:
Shelve the project
Add any or all the shelves you want.

Step Three:
Keep it out of sight
Consider storage options to keep organized and tidy.

Step Four:
Finish with flair
Add accessories to make the Convoi perfect.

Specifications

Convoi comes with two extruded aluminum leg columns with integrated cable management, two base tubes, two cast feet and four 5" casters (two directional locking and two total locking).

- Holds up to 500 lbs. total, 100 lbs. per shelf.
- Lifetime Warranty on the Convoi.
- Product ships unassembled, with all the necessary tools.

See page 98 for a complete list of accessories.

POC Cart

Height-adjustable and compact in size, the POC Cart can be used either sitting down or standing up. Simply adjust the lever and the height range changes from 30" to 40"!

Basic POC Cart...

with two Bins for storage...

completed with a Large Equipment Shelf.

A. With its small footprint and ability to adjust to multiple heights for various users, the POC Cart is a favorite in medical facilities.

- Flat Panel Monitor Mount – Dual, Part #: 617SM
- Mouse Shelf – Swing-out, Part #: 687BK
- Shelf – Small Equipment, Part #: 621SM
- Shelf – Large Equipment, Part #: 623SM

B.

C.

D.

E.

F.

B. Todd uses the POC Cart as a single-monitor PACS station in the OR. He can swing the Mouse Shelf out when he needs it and push it underneath the POC shelf when he's done. Todd has added:

- Flat Panel Monitor Mount – Single, Part #: 615SM
- Mouse Shelf – Swing out, Part #: 687BK
- Shelf – Large Equipment, Part #: 623SM
- Shelf – Small Equipment, Part #: 621SM

C. Put your POC Cart accessories where you need them. Hook your accessory over knobs, which attach to the holes placed every two inches along the trunk. Abood uses:

- Bin, Part #: 635SM
- Shelf – Small Equipment, Part #: 621SM

D. Stephen uses the POC Cart to move his presentation equipment around. With a smooth handle and solid 4" casters, the POC is ideal for high mobility applications. Stephen's POC Cart includes:

- Bin, Part #: 635SM

E. This clinician monitors her patient's balance and gait performance using Neurocom's computer system. The system components fit nicely on the POC Cart, which includes:

- Shelf – Small Equipment, Part #: 621SM
- Shelf – Large Equipment (two), Part #: 623SM

F. Weave your cables inside the trunk of the POC Cart to prevent them from getting snagged. The door attaches with two knobs.

Specifications

The POC Cart comes standard with one height-adjustable shelf, handle, gas cylinder with height adjustment lever, trunk with integrated cable management, base and five 4" casters (2 locking).

- Holds up to 150 lbs.
- The Cart has a Lifetime Warranty. The gas cylinder has a Five Year Warranty.
- Product ships unassembled, with all the necessary tools.

Laptop Storage Cart

Anthro's newest generation of Laptop Storage Carts includes many exciting design and safety features. Keep your children safe with a Laptop Storage Cart that is UL-listed both inside and out! Choose between two models that best fit your classroom.

Design flair and customer convenience helped Anthro's Laptop Storage Carts win The Most Innovative Product award in 2002 at the Best of NeoCon Competition.

Anthro's Carts have been UL tested and listed on both the electrical and cabinets. This means that if a short occurs, our cabinets won't become electrically hot and shock you or your students.

A.

A. Jeff uses the 30 Unit model to charge and move laptops to his larger classes and the 20 Unit for his smaller classes.

B. Load and get access to your laptops or tablet computers from both sides of the 20 Unit Cart.

C. Thom is delighted that the Laptop Storage Cart comes already assembled. He simply needs to unbox it and he's ready to go!

B.

C.

Handle
Large handles give you controlled steering down long hallways, around tight corners and over uneven surfaces.

Casters
Heavy-duty, solid rubber, 5" casters (two total locking and two directional locking) easily move your laptops or tablet computers along. You can upgrade to 8" pneumatic casters.

Vents
Vented doors and side panels allow air to circulate around your equipment.

Lock
Reinforced steel doors have a two point keyed locking system that grabs and secures both the bottom and side of the Cart to keep your laptops or tablet computers safe.

Latch
The T-handle is recessed so it doesn't stick out and catch on door frames and corners.

Cable Wrap
An exterior shark fin cable wrap keeps your 14 foot exterior power cable organized when not in use.

External Outlets
Two external outlets for peripherals and LAN offer you the convenience of using a printer, projector or other hardware with your Cart.

Internal Outlets
Built-in power with electrical outlets in each storage bay allow you to charge your laptops or tablet computers without having to use unsafe daisy-chained power strips. Shelves are 3" apart.

Charging
Rear placement of the outlets means you can keep your adapters plugged in at all times without having to unplug them when you load and unload your laptops or tablet computers.

Cable Management
To manage your cables and adapters more easily, each storage bay shelf has a slot to be used with supplied velcro cable ties, so all cables can be velcroed into tiny bundles.

Power Switching
Anthro's 30 Unit model is uniquely equipped with a built-in timing device that automatically switches the AC power supply from one side of the Cart to the other to prevent overload.

Specifications

20 Unit Cart: Comes standard with two reinforced lockable doors, two side panels, one top and bottom panel, eighteen shelves, exterior cable wrap, interior electrical outlet channel, two exterior power receptacles, one exterior data input connection and four 5" casters (two directional casters and two locking). Each storage bay is 15.5"w x 12"d x 3"h.

30 Unit Cart: Comes standard with four reinforced lockable doors, two side panels, one top and bottom panel, twenty-eight shelves, exterior cable wrap, interior electrical outlet channel, two exterior power receptacles, one exterior data input connection and four 5" casters (two directional casters and two locking casters). Each storage bay is 16"w x 12"d x 3"h.

- The Laptop Storage Cart has a Lifetime Warranty on the cabinet and a One Year on the electrical. The cord is not covered under Warranty.
- Product ships assembled.

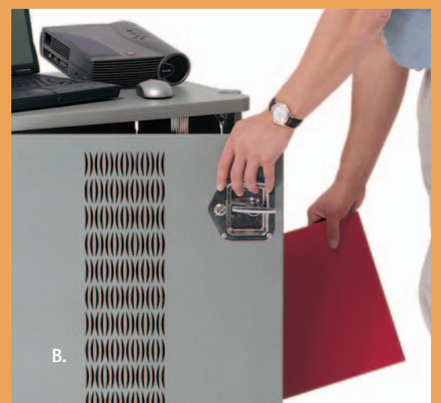
A. Use the locking Security Cart to hold all of your presentation equipment. Pull out your keyboard and mouse when you need it, slide it back in when you're through. Security Cart shown with:

- Shelf – Upper, Part #: EAS24SM/LG
- Extension Tubes – 12", Part #: 243SM
- Keyboard and Mouse Caddy – B, Part #: UKMCBK
- Shelf – Inside Metal, Part #: EMS24SM

B. The door's strong 2-point lock engages the bottom and side of the Cart to keep equipment safe and secure.



B.

C.

D.

C. Greg locks up his test and measurement equipment in the Security Cart. Use the top shelf to hold your laptop, monitor or other hardware. Greg's Security Cart includes:

- Handle, Part #: EHSM

D. Scott enjoys the best of both worlds. He uses the top surface of the 30" wide Security Cart as a computer station, and still has the option of storing sensitive equipment in the lockable cabinet below. Scott has added:

- Flat Panel Monitor Arm, Part #: LCDBK
- Drawer , Part #: EDW30SM
- Shelf – Inside Metal, Part #: EMS30SM

E. Store your loose items in this roomy metal Drawer. Pulls out easily on smooth ball bearing glides. See page 101 for more information.

F. Add this curved 16" wide Handle to move the Cart where you need it. See page 101 for more information.

Rack System

Flexibility is the key to the Anthro Rack System. You can mount both standard threaded rail mount and Dell/HP style mounts all in one rack. Now that's convenience!

Features

Practical Design
Open design gives you plenty of air flow.

Adjustable
Floating Panels mount forward and back. Attach Tapped Rails (sold separately) to the Floating Panels to support the back of your equipment – even equipment of different depths.

Flexible
Maintain different standards (threaded rail mount, hook mount style and stand-alone equipment) all in one place.

Several Sizes
Choose from four heights (12 Unit, 16 Unit, 24 Unit, and 36 Unit) and two depths (24" and 30").

Two Finishes
Choose Black or Silver Metallic finish.

Optional Casters
Add 5" Casters to move your Rack System wherever you need it.

Cable Management
Keep your cords organized and route cables inside the roomy Floating Panel.

Warranty
Lifetime Warranty for any manufacturing defect.

Accessories: Make it Easy on Yourself

A. Door: Lock up your equipment safely. Heavy-duty lock keeps equipment secure.

B. Drawer – Large: Store odds and ends. Pulls out on 22" full-extension glides.

C. Shelf – Pull-out: Store equipment or keyboards on 22" full-extension glides to prevent overload.

D. Panel – Back: Protect your equipment. Cord grommets route cables.

E. Panel – Side: Ventilate and conceal your equipment to keep it safe.

F. Panel – Top: Solid steel top for added security and storage.

G. Panel – Bottom: Base shelf for storage or to protect equipment from damage.

H. Shelf – Fixed: Add free-standing equipment to complete your Rack System.

I. Handle: Easily steer your Rack System just where you need it.

J. Face Plates: Cover open areas providing a clean, finished look.

K. Casters – 5": Move your Rack System just where you need it.

L. Tapped Rails: Support threaded rail mount or Dell/HP-mount equipment.

Building Your Rack

Before you place an order, you'll need to identify the specific equipment, by manufacturer, that will go in your Rack System. If you are unfamiliar with rack systems, here are some simple steps in configuring ours:

Basic Frames

Step One: The Basic Frame

You begin with the Basic Frame. First decide how many Units of rack you'll need. Your rack mountable equipment is measured in Units (a Rack Unit is 1.75" high). Figure out how many Units of equipment you have. You also might want extra Units to grow. Add all those Units up, and that will determine which Anthro Basic Frame to consider. Anthro offers 12 Unit, 16 Unit, 24 Unit and 36 Unit models.

Step Two: Adding Tapped Rails to the Front (Required)

Equipment is mounted to the Basic Frame using Tapped Rails. You attach the rails to the Frame, and then your equipment is attached to the rails. The industry uses two standards of rack mountable equipment: those that use threaded rail mounts which have standard 10-32 screw holes; and Dell/HP style mounts that have larger square holes instead of screw holes. You can use both standards on an Anthro Rack System. Choose Tapped Rails that are specific to your equipment from our accessory list starting on page 103.

Step Three: Choosing Tapped Rails for the Back

Some rack mountable equipment requires support in the rear. Anthro's floating panels, which come standard on the sides of the Basic Frame, mount on the front or the back of the frame so that you can support equipment of different depths. Choose Tapped Rails for the rear of your equipment from our Tapped Rail offerings. Some Anthro Rack accessories require back Tapped Rails for sturdy mounting (see page 102).

Step Four: Add Accessories to Complete your Rack System

See all your choices on page 93.

Specifications

The Rack System comes standard with one metal support frame, two Floating Panels (1" wide on the 12 Unit, 9" wide with cable management on the 16, 24 and 36 Units) and four self-leveling glides.

- 1 Rack Unit = 1.75"h x 19"w.
- 2 sets of Tapped Rails are required if using Shelves or the Drawer.
- Orders ship in 5-7 business days.
- Rack has a Lifetime Warranty.
- Product ships unassembled, with all the necessary tools.

See page 102 for a complete list of accessories.

Accessories

Drill Symbol indicates that you will need to drill a hole in a shelf for installation.

1. Carl's Table – CPU Holder

Add a second CPU to your Carl's Table with this metal bracket. Mounts underneath a shelf. CPU rests in sturdy steel carriage. Adjusts to hold CPUs 7" – 10" wide and 12" – 22" tall. Overall width is 3.5" plus the width of your CPU. Height is 4.5" plus the height of your CPU. Shown on pages 74 and 75.

Color: Silver Metallic (SM)
Part #: 367SM

2. Carl's Table – Chairs

A. Basic Chair

The seat angles forward and backward, and the padded T-arms adjust up and down. The back features separate height and angle adjustments. Supports 300 lbs. Shown on pages 26 and 76.

Color: Black (BK)
Part #: 901BK
Compatibility: All Anthro Families

B. Super Chair

The Super chair moves forward and backward. The seat back is taller than the "Basic" chair, a separate control slides the seat pad front to back, includes separate angle adjustment and the T-arms adjust up and down, in and out. Supports 300 lbs. Shown on pages 25, 27, 29 and 76.

Color: Black (BK)
Part #: 902BK
Compatibility: All Anthro Families

C. Deluxe Chair

All the features of the "Super" chair, plus an even higher seat back with a padded, height-adjustable head rest. The padded T-arms adjust up and down, in and out, and pivot to allow easy access. Supports 300 lbs. Shown on pages 28, 70 and 76.

Color: Black (BK)
Part #: 903BK
Compatibility: All Anthro Families

D. Verté® Chair

This is state-of-the-art ergonomics in seating. A series of 11 torsion spring-loaded bearing joints conform to your exact spine impression, which you can then lock into place. This chair is also about comfort. Three built-in levers control the chair's overall height and tilt. With the gel-filled full grain leather seat, padded two-way adjustable head rest, and adjustable and removeable padded T-arms, you won't want to get up. Supports 275 lbs. Shown on pages 33 and 77.

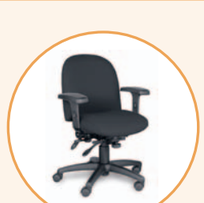
Color: Black (BK)
Part #: 904BK
Compatibility: All Anthro Families

1. eNook – Shelves

Metal shelves to hold your cell phones, PDAs, digital cameras and other small gadgets. Includes cord clips to manage your cables and connect shelves together. eNook can hold up to four shelves. Remember to leave room to store your laptop. Each shelf is 13"w x 5 1/2"h x 5"d and holds up to 5 lbs. Shown on pages 18, 78 and 79.

Color: Silver Metallic (SM)
Part #: 336SM

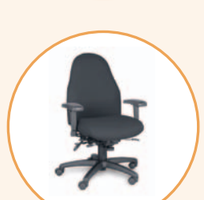
1. Adjustable Laptop Cart – Chairs



A. Basic Chair

The seat angles forward and backward, and the padded T-arms adjust up and down. The back features separate height and angle adjustments. Supports 300 lbs. Shown on pages 26 and 76.

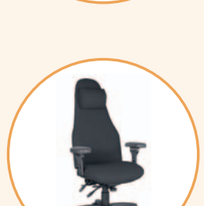
Color: Black (BK)
Part #: 901BK
Compatibility: All Anthro Families



B. Super Chair

The Super chair moves forward and backward. The seat back is taller than the "Basic" chair, a separate control slides the seat pad front to back, includes separate angle adjustment and the T-arms adjust up and down, in and out. Supports 300 lbs. Shown on pages 25, 27, 29 and 76.

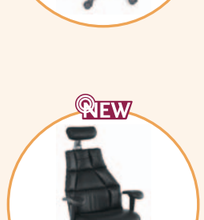
Color: Black (BK)
Part #: 902BK
Compatibility: All Anthro Families



C. Deluxe Chair

All the features of the "Super" chair, plus an even higher seat back with a padded, height-adjustable head rest. The padded T-arms adjust up and down, in and out, and pivot to allow easy access. Supports 300 lbs. Shown on pages 28, 70 and 76.

Color: Black (BK)
Part #: 903BK
Compatibility: All Anthro Families



D. Verté® Chair

This chair is also about comfort. Three built-in levers control the chair's overall height and tilt. With the gel-filled full grain leather seat, padded two-way adjustable head rest, and adjustable and removeable padded T-arms, you won't want to get up. Supports 275 lbs. Shown on pages 33 and 77.

Color: Black (BK)
Part #: 904BK
Compatibility: All Anthro Families

2. Adjustable Laptop Cart – Document Stand

Raises your documents and manuals to a preferred viewing height. Comes with 10" gooseneck so you can find a position that works for you. Lip is 2" deep to securely hold your items. Clamps onto the edge of your Cart with a C-clamp. Measures 14.25"w x 11"h. Shown on pages 24, 34 and 51.

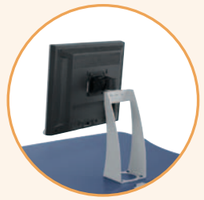
Color: Black (BK), Silver Metallic (SM)
Part #: 440BK, 440SM

3. Adjustable Laptop Cart – Equipment Hold-down

Secure your equipment to a shelf with this handy kit. First, attach an adhesive-backed buckle to one side of your equipment and another to the shelf, then feed the included strap through the buckles to secure. Kit includes four adhesive-backed buckles, two 8" Polypropylene straps and two alcohol pads for cleaning equipment and shelves. Shown on page 56.

Color: Black (BK)
Part #: 333BK

4. Adjustable Laptop Cart – Flat Panel Monitor Mount



Secure your flat panel monitor to your Cart with this metal swivel-head mount. Choose single-monitor or dual-monitor design. The single-monitor version supports up to 22 lbs. The dual-monitor version supports a total of 22 lbs. and two monitors up to 17" across. The heavy-duty dual-monitor version supports up to two monitors (20" across) and a total of 44 lbs. It is 22" wide with mounting points in 1" increments. The Mount elevates the center of the monitor 13" above the shelf. Install by drilling through the shelf and secure with four bolts. Conforms to VESA 75mm and 100mm mounting standards. Shown on pages 10, 19 and 86.

Color: Black (BK), Silver Metallic (SM)
Part #: Single – 615BK, 615SM
Dual – 617BK, 617SM
Heavy-Duty Dual – 627BK, 627SM

5. Adjustable Laptop Cart – Mouse – Swing-out

Keep your mouse handy with this roomy (8"w x 9"d) swivel shelf. It rotates 360° so the mouse stows away under the shelf when not in use. Made of steel phenolic. Attaches with four screws. Shown on pages 86 and 87.

Color: Neutral Black Granite
Part #: 687BK

6. Adjustable Laptop Cart – Shelves

A. Shelf – Back

Give yourself more room to spread out by attaching this Back Shelf to the Cart's top shelf. When installed, creates a 26" x 25.5" top surface. Route cables through opening slit between shelves to keep everything tidy. Shown on page 80.

Color: Silver Metallic (SM) metal with Black (BK), Bluestone (BS) or Fog (FG) laminate
Part #: 591SM/BK, 591SM/BS, 591SM/FG

B. Shelf – Lower

Put your small printer or other equipment on this Lower Shelf. Quickly mounts anywhere along the trunk with just a few screws. Shown on page 80.

Color: Silver Metallic (SM) metal with Black (BK), Bluestone (BS) or Fog (FG) laminate
Part #: 592SM/BK, 592SM/BS, 592SM/FG

1. SpacePal Cart – CPU Siderack with Caster

Mount your CPU on the side with our new SideRack. It opens to accept your CPU, then closes tight to hug it securely. Lifts your CPU approximately 7" above the floor. Adjusts to fit CPUs from 4.5"w to 10"w. Add 2.75" to the width of your CPU to determine how far the SideRack will extend from the side of the Cart. Comes with 1 caster. Specify if you plan to use a 4" or 5" Caster. Holds up to 100 lbs. Shown on page 81.

Color: Blueberry (BL), Grape (GP), Graphite Blue (GB), Indigo (IN), Ruby (RU), Sage (SA), Silver Metallic (SM), Tangerine (TN)
Part #: 564BL, 564GP, 564GB, 564IN, 564RU, 564SA, 564SM, 564TN

2. SpacePal Cart – Document Tray

Raises your documents to the most comfy viewing position. Pivot the document tray for the best angle. The lip supports documents 1.75" thick. Mounts to any leg or can stand alone on the surface. Measures 13"h x 13"w. Shown on page 81.

Color: Blueberry (BL), Grape (GP), Graphite Blue (GB), Indigo (IN), Ruby (RU), Sage (SA), Silver Metallic (SM), Tangerine (TN)
Part #: DTBL, DTGP, DTGB, DTIN, DTRU, DTSA, DTSM, DTTN

See next page for more SpacePal Cart accessories.

Accessories

Drill Symbol indicates that you will need to drill a hole in a shelf for installation.

3. SpacePal Cart – Extension Tubes

Use the Extension Tubes to build your Cart up vertically to save space. Tubes are 20" long. They push into the legs of the Cart. Set of 4. Shown on page 81.

Color: Blueberry (BL), Grape (GP), Graphite Blue (GB), Indigo (IN), Ruby (RU), Sage (SA), Silver Metallic (SM), Tangerine (TN)
Part #: 288BL, 288GP, 288GB, 288IN, 288RU, 288SA, 288SM, 288TN

4. SpacePal Cart – Keyboard Caddy

Puts your keyboard where you need it (and goes underneath when done). Adjusts in height from even with your work surface to 5.5" below. Platform measures 25.5"w x 11"d x .5"h. Sticks out 2" when recessed. Shown on page 81.

Color: Blanc (white) only
Part #: 432BC

5. SpacePal Cart – Mouse Shelf Clamp-on

Need extra space for your mouse? This affordable metal shelf clamps onto your work surface and gives you 8" more width to scoot your mouse around. Measures 10"w x 8.5"d. Clamps onto surfaces up to 1.5" thick. Shown on page 81.

Color: Blueberry (BL), Grape (GP), Graphite Blue (GB), Indigo (IN), Ruby (RU), Sage (SA), Silver Metallic (SM), Tangerine (TN)
Part #: CMSBL, CMSGP, CMSGB, CMSIN, CMSRU, CMSSA, CMSSM, CMSTN

6. SpacePal Cart – Shelf – Additional

Gives you extra space within the footprint of the Cart. Mounts to the holes in the legs at any height. Add as many as space allows. Combine with Extension Tubes to make your SpacePal taller. Shelf color is Blanc (white). Shown on page 81.

Color: Shelf Color: Blanc (BC); Metal Color: Blueberry (BL), Grape (GP), Graphite Blue (GB), Indigo (IN), Ruby (RU), Sage (SA), Silver Metallic (SM), Tangerine (TN)
Part #: 102BL/BC, 102GP/BC, 102GB/BC, 102IN/BC, 102RU/BC, 102SA/BC, 102SM/BC, 102TN/BC

See previous page for more SpacePal Cart accessories.

1. Power Supply Cart – Battery Pack

This 54 Amp/Hour Battery Pack is the replacement Battery Pack for the Power Supply Cart when the original battery runs out. Charges overnight. Life expectancy is 500+ cycles. Ship your old Battery Pack back to us; we'll recycle it for you at no charge.

Color: Ash White (AH), Silver Metallic (SM)
Part #: 954AH, 954SM

2. Power Supply Cart – Equipment Hold-down

Secure your equipment to a shelf with this handy kit. First, attach an adhesive-backed buckle to one side of your equipment and another to the shelf, then feed the included strap through the buckles to secure. Kit includes four adhesive-backed buckles, two 8" Polypropylene straps and two alcohol pads for cleaning equipment and shelves. Shown on page 56.

Color: Black (BK)
Part #: 333BK

1. Trolley – Drawer Solutions

A. Drawer – Small 3"

Sturdy metal drawer takes up little room, but gives you extra hideaway storage. Moves in and out on ball bearing glides. The interior measures 13"w x 11"d x 3"h. Attaches with eight screws. Shown on page 83.

Color: Black (BK), Silver Metallic (SM)
Part #: 413BK, 413SM

B. Drawer – 6"

This lockable drawer comes with one divider to keep a separate space if needed. Rounded front edges and a curved handle ensure a safe meeting between your legs and the drawer. Ball bearings guarantee a smooth push/pull action. Interior measurements are 12"w x 16.5"d x 6"h. Overall outside dimensions are 13.5"w x 18.5"d x 6.5"h. Shown on page 43.

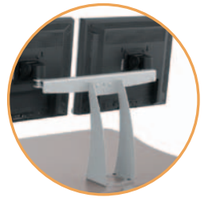
Color: Black (BK), Silver Metallic (SM)
Part #: 275BK, 275SM

2. Trolley – Equipment Hold-down

Secure your equipment to a shelf with this handy kit. First, attach an adhesive-backed buckle to one side of your equipment and another to the shelf, then feed the included strap through the buckles to secure. Kit includes four adhesive-backed buckles, two 8" Polypropylene straps and two alcohol pads for cleaning equipment and shelves. Shown on page 56.

Color: Black (BK)
Part #: 333BK

3. Trolley – Flat Panel Monitor Mount



Secure your flat panel monitor to your Cart with this metal swivel-head mount. Choose single-monitor or dual-monitor design. The single-monitor version supports up to 22 lbs. The dual-monitor version supports a total of 22 lbs. and two monitors up to 17" across. The heavy-duty dual-monitor version supports up to two monitors (20" across) and a total of 44 lbs. It is 22" wide with mounting points in 1" increments. The Mount elevates the center of the monitor 13" above the shelf. Install by drilling through the shelf and secure with four bolts. Conforms to VESA 75mm and 100mm mounting standards. Shown on page 83.

Color: Black (BK), Silver Metallic (SM)
Part #: Single – 615BK, 615SM
Dual – 617BK, 617SM
Heavy-Duty Dual – 627BK, 627SM

4. Trolley – Keyboard and Mouse Caddy – B

The height-adjustable, retractable caddy tilts 20° negative or 20° positive, perfect for shared workstations and for individual users who want to change typing position throughout the day. The keyboard surface is 19.5" wide, 8" deep and comes with a padded wrist support for comfort. Keyboard platform adjusts from even with your work surface to 6" below. Available with mouse on left or right. Steel phenolic surface is neutral granite finish. Shown on page 83.

Color: Neutral Black Granite
Part #: (mouse on right) UKMCBK, (mouse on left) UKMCLBK

5. Trolley – Mouse Shelf – Swing-out

Keep your mouse handy with this roomy (8"w x 9"d) swivel shelf. It rotates 360° so the mouse stows away under the shelf when not in use. Made of steel phenolic. Attaches with four screws. Shown on page 86.

Color: Neutral Black Granite
Part #: 687BK

6. Trolley – Shelves

A. Shelf – Additional Metal

Install larger equipment (like CPUs or printers) on this solid metal shelf. Installs on the legs at any height in 1" increments and is 17.5"w x 18"d. Holds up to 50 lbs. Shown on page 83.

Color: Silver Metallic (SM)
Part #: 654SM

B. Shelf – Additional Wood

Add more storage space with another shelf. This laminated wood shelf is 18.5"w x 19.5"d and comes with a cord loop for cable management. Shelf holds 50 lbs. Shown on page 83.

Color: Metal: Silver Metallic (SM); Laminate: Light Grey (LG)
Part #: 427SM/LG

C. Shelf – Base

Slotted metal shelf installs between the base legs to store your CPU, UPS or other hardware. Shelf comes with Strap and Buckle Kit. Usable shelf space is 11.5"w x 15"d. Shelf holds up to 60 lbs. Shown on page 83.

Color: Silver Metallic (SM)
Part #: 648SM

7. Trolley – Tray

This sturdy metal bin stores odds and ends and keeps them handy. The 2.5" high sides keep contents from rolling out. Install it at any height along the legs in 1" increments. Measures 11.5"w x 14.5"d x 2.5"h and holds up to 40 lbs. Shown on page 83.

Color: Silver Metallic (SM)
Part #: 631SM

Talking to customers is always a pleasure.

I got a call from an elderly gentleman whose son had sent him a little plastic thing from Anthro. He was very angry because he didn't know what it was or how to use it.

After a very lengthy conversation trying to figure out what exactly he had, I realized it was a Tidy Tube, a toothpaste tube roller upper we give out at trade shows. When I told him what it was, the man indignantly replied, "Why would I need that? I don't have any teeth!"

– Mike, Inside Sales

We hear some great stories about why customers love their Anthro workstations.

One customer became a loyal Anthro evangelist in 1994 after the Northridge/Riverside earthquake. She said that her computer station was the only thing that survived.

She credits her mobile AnthroCart for "rolling with the punches" during the quake and aftershocks. In fact her AnthroCart was the only thing left standing! It was on the other side of the room, but it was still standing!

– Sandy, Inside Sales

Accessories

Drill Symbol indicates that you will need to drill a hole in a shelf for installation.

1. Convoi – Cup Holder

Safely store your beverage and prevent spills on your desk. It holds your largest cup of coffee! Clamps onto any surface with an easy-to-use C-clamp. Holds up to a 3.5" diameter cup and is 2" deep.
Shown on pages 51 and 52.

Color: Silver Metallic (SM)
Part #: 465SM

2. Convoi – Document Stand

Raises your documents and manuals to a preferred viewing height. Comes with 10" gooseneck so you can find a position that works for you. Lip is 2" deep to securely hold your items. Clamps onto the edge of your Cart with a C-clamp. Measures 14.25"w x 11"h. Shown on pages 51 and 52.

Color: Silver Metallic (SM)
Part #: 440SM

3. Convoi – Drawer Solutions

A. 1-Drawer Small Enclosure

This locking metal and wood drawer glides easily on high quality ball bearings. Available for 24" and 30" wide Carts. Interior depth is 21.75" and interior height is 7.5" on both sizes. Exterior height is 12.5". Interior drawer width on the 24"w Cart is 17.75" and on the 30"w Cart, it is 23.75". Mount drawer onto legs exactly where you want it. Shown on page 85.

Color: Silver Metallic (SM)
Part #: 24"w – 2401SM/BF; 30"w – 3001SM/BF

B. 3-Drawer Medium Enclosure

The large 7.5" high bottom metal and wood drawer is topped by two smaller 3.5" high drawers, giving plenty of storage space. All drawers lock and move in and out on ball bearing glides. Available for 24" and 30" wide Carts. Height is 20". Interior depth is 21.75" for both Cart sizes. Interior drawer width on the 24"w Cart is 17.75" and on the 30"w Cart is 23.75". All drawers have an anti-tip feature. May be mounted onto legs at any desired height. Shown on page 85.

Color: Silver Metallic (SM)
Part #: 24"w – 2421SM/BF; 30"w – 3021SM/BF

C. 4-Drawer Large Enclosure

Available for 24" and 30" wide Carts. Includes two large 7.5" high drawers on the bottom and two smaller 3.5" high drawers on top, giving plenty of storage space. Overall height is 27.5". Metal and wood drawers come with locks and an anti-tip feature. Interior depth is 21.75" for both Cart sizes. Interior height is 7.5" on the two bottom drawers and 3.5" on the two upper drawers. Interior drawer width on the 24"w Cart is 17.75" and on the 30"w Cart it is 23.75". Ball bearings guarantee a smooth push/pull action. Mount the drawer onto the legs at the height that works best for you. Shown on page 85.

Color: Silver Metallic (SM)
Part #: 24"w – 2422SM/BF; 30"w – 3022SM/BF

3. Convoi – Drawer Solutions (continued)

D. Drawer – Small 3"

Sturdy metal drawer takes up little room, but gives you extra hideaway storage. Moves in and out on ball bearing glides. The interior measures 13"w x 11"d x 3"h. Attaches with eight screws. Shown on page 56.

Color: Silver Metallic (SM)
Part #: 413SM
Compatibility: Requires a Cap Shelf or Wood Shelf.

E. Drawer – 6"

This lockable drawer comes with one divider to keep a separate space if needed. Radiused front edges and a rounded handle ensure a safe meeting between your legs and the drawer. Ball bearings guarantee a smooth push/pull action. Interior measurements are 12"w x 16.5"d x 6"h. Overall outside dimensions are 13.5"w x 18.5"d x 6.5"h. Shown on page 43.

Color: Silver Metallic (SM)
Part #: 275SM
Compatibility: Requires a Cap Shelf or Wood Shelf.

F. Drawer – 6" and 11" File

Take advantage of Convoi's open design and add a Hanging File under your Cart. Lockable metal unit has 2 drawers. One is 6" high and one 11" high for all your letter-size files. Interior dimensions for the 6" Drawer are 12"w x 16.5"d x 6"h. Interior measurements for the 11" Drawer are 12"w x 16.5"d x 9.5"h. Overall outside dimensions are 13.5"w x 18.5"d x 17.5"h. Shown on page 24.

Color: Silver Metallic (SM)
Part #: 298SM
Compatibility: Requires a Cap Shelf or Wood Shelf.

4. Convoi – End Cap

This rounded metal cap finishes off the legs. Measures 2.5"w by 5"d and weighs two lbs. Sold as a pair. One pair per Cart. Shown on page 84.

Color: Silver Metallic (SM)
Part #: BUEC
Compatibility: Required for orders without a Cap Shelf.

5. Convoi – Equipment Hold-down

Secure your equipment to a shelf with this handy kit. First, attach an adhesive-backed buckle to one side of your equipment and another to the shelf, then feed the included strap through the buckles to secure. Kit includes four adhesive-backed buckles, two 8" Polypropylene straps and two alcohol pads for cleaning equipment and shelves. Shown on page 56.

Color: Black (BK)
Part #: 333BK

6. Convoi – Flat Panel Monitor Solutions

A. Flat Panel Monitor Arm

Mount your flat panel displays and raise them off the work surface. Move it near you when you need it, away when you don't, with light fingertip pressure. Made of steel, the Arm has a vertical travel range of 16" in height and rotates 360°. Adjusts at three joints and tilts your display up to 200°. Can be mounted two ways: drill through option or C-clamp to any shelf edge. Extends 22" from where it is mounted. Includes integrated cable management. Conforms to VESA 75mm and 100mm mounting standards. Shown on page 26.

Flat Panel Monitor Arm: Holds monitors 10 to 22 lbs.

Flat Panel Monitor Arm – Super: Holds monitors 18 to 42 lbs.

Color: Silver Metallic (SM)
Part #: Standard – LCDSM; Super – LCD2SM
Compatibility: Requires a Cap Shelf or Wood Shelf.

B. Flat Panel Monitor Mount

Secure your flat panel monitor to your Cart with this metal swivel-head mount. Choose single-monitor or dual-monitor design. The single-monitor version supports up to 22 lbs. The dual-monitor version supports a total of 22 lbs. and two monitors up to 17" across. The heavy-duty dual-monitor version supports up to two monitors (20" across) and a total of 44 lbs. It is 22" wide with mounting points in 1" increments. The Mount elevates the center of the monitor 13" above the shelf. Install by drilling through the shelf and secure with four bolts. Conforms to VESA 75mm and 100mm mounting standards. Shown on page 85.

Color: Silver Metallic (SM)
Part #: Single – 615SM; Dual – 617SM; Heavy Duty Dual – 627SM
Compatibility: Requires a Cap Shelf or Wood Shelf.

7. Convoi – Handle

This 18" wide handle makes it easy to steer your Convoi. Extends 5" from the side of the Cart, and is 1.25" in diameter. Mounts to either leg. Shown on page 84.

Color: Silver Metallic (SM)
Part #: BUHD

8. Convoi – Keyboard Solutions

A. Keyboard and Mouse Caddies

Ensure ergonomic keyboarding height and comfort with these versatile and well-made Caddies. Roomy keyboard platform (19.5"w x 8"d), plus an extension for your mouse (8"w x 9"d) that swivels. Caddies move in and out, up and down, tilt and swivel 360°. Made of steel and phenolic. The front surface has a foam rest for wrist support. Shown on page 84.

Keyboard and Mouse Caddy – A: Tilts 20° negative to 10° positive. Movement ranges from 6" above your work surface to 5.5" below – great for sit-down or stand-up applications. Mounting track is 22" deep.

Keyboard and Mouse Caddy – B: Tilts 20° negative to 20° positive. Movement ranges from even with your work surface to 6" below. Mounting track is 18.5" deep.

Color: Neutral Black Granite
Part #: Keyboard and Mouse Caddy – A: (mouse on right) 149SM, (mouse on left) 149LSM; Keyboard and Mouse Caddy – B: (mouse on right) UKMCBK, (mouse on left) UKMCLBK
Compatibility: Requires a Cap Shelf or Wood Shelf.

B. Keyboard Drawer 20"

Place your keyboard on this handy drawer. Pull your keyboard out when you want to use it, hide it away when you're done. Slides on smooth ball bearing glides. Can be assembled to fit 3" to 4" below your large shelf surface so there is plenty of room for your knees. The 20" wide Drawer measures 20"w x 11"d x 3.5"h. Extends 10" out from the surface you are mounting it to. Shown on pages 58 and 59.

Color: Blanc (BC)
Part #: 20BC
Compatibility: Requires a Cap Shelf or Wood Shelf. Does not work on the 20"w Convoi.

9. Convoi – Paper Tray

Use several Paper Trays to organize your loose papers. Holds a full ream of paper – perfect for right under a shelf with a printer. Tray mounts under any surface. Made of 16 gauge steel, the tray measures 11.25"w x 12.5"d x 3"h. Shown on pages 34 and 52.

Color: Silver Metallic (SM)
Part #: 325SM
Compatibility: Requires a Cap Shelf or Wood Shelf.

10. Convoi – Rack – Hanging

Keep your rack equipment within easy reach. Tapped mounting rails make it a breeze to mount your equipment. Available in 3 and 9 Unit sizes, the Hanging Rack screws to the underside or top of your shelf. The 3 Unit Rack measures 5.25"h x 22"w and the 9 Unit Rack measures 18.25"h x 22"w. Holds up to 100 lbs. Made of 11 gauge steel. Shown on page 55. See page 43 to see a 9 Unit photo.

Color: Silver Metallic (SM)
Part #: 3 Unit – RH3SM, 9 Unit – RH9SM
Compatibility: Requires a Cap Shelf or Wood Shelf. Does not work on the 20"w Convoi.

See next page for more Convoi accessories.

Accessories

Drill Symbol indicates that you will need to drill a hole in a shelf for installation.

11. Convoi – Shelves

A. Shelf – Base Storage

Available in both 24" and 30" widths. Shelves for both Cart sizes are 16" deep. The shelf for the 24"w Cart is 17.25"w and the shelf for the 30"w Cart is 23.75"w. Below the shelf is a 9"w x 16"d x 7.75"h storage box often used for a UPS. Shown on page 84.

Color: Silver Metallic (SM)
Part #: 24"w – 24IBSM; 30"w – 30IBSM

B. Shelf – Cap

This sturdy shelf is one inch industrial grade particle board, covered with high pressure, scratch-resistant laminate with contrasting edge banding. It is for the top of the Cart only, and is available for both the 24" and 30" wide Carts. Shelves for both Cart sizes are 22.5" deep. The shelf for the 24"w Cart is 24.25"w, the shelf for the 30"w Cart is 30.25"w. Shown on pages 84 and 85.

Color: Blanc with Fog edge band (BF)
Part #: 24"w – 24CSSM/BF; 30"w – 30CSSM/BF

C. Shelf – Metal

This solid metal shelf comes in 24" and 30" widths. Shelves for both Cart sizes are 22" deep. The shelf for the 24"w Cart is 22"w, the shelf for the 30"w Cart is 28"w. Shelf slides down the legs and screws into place with 8 screws. Shown on page 84.

Color: Silver Metallic (SM)
Part #: 24"w – 24MSSM; 30"w – 30MSSM

D. Shelf – Metal Bin

The 2" high sides on this shelf help keep items securely on the Cart. Available for both 24" and 30" wide Carts. Shelves for both Cart sizes are 22" deep. The shelf width for the 24"w Cart is 21.5", and for the 30"w Cart it is 27.5". Shelf slides down the legs and screws into place with 8 screws. Shown on page 85.

Color: Silver Metallic (SM)
Part #: 24"w – 24MBSM; 30"w – 30MBSM

E. Shelf – Wood

This strong 1" thick shelf is available for both 24" and 30" wide Carts. Shelves for both Cart sizes are 22.5" deep. The shelf for the 24"w Cart is 23.5"w, the shelf for the 30"w Cart is 29.5"w. Set shelves at any height along the legs, starting at 10" above the floor. Shelf slides down the legs and screws into place with 8 screws. Shown on page 84.

Color: Blanc with Fog edge band (BF)
Part #: 24"w – 24WSSM/BF; 30"w – 30WSSM/BF

F. Shelf – Tilt

This versatile solid metal shelf tilts 14° to either side. Available for both 24" and 30" wide Carts. The shelf for the 24"w Cart is 17"w x 24.5"d, and for the 30"w Cart, it is 23"w x 23"d. Shelf slides down the legs and screws into place with 8 screws. Shown on page 84.

Color: Silver Metallic (SM)
Part #: 24"w – 24MTSM; 30"w – 30MTSM

12. Convoi – Surge Protector

Take all of your cords and plug them into one strip. Mount onto any leg or underneath any shelf. The Surge Protector has 6 outlets rated at 15 amp and 120 volts. UL listed. Has a 6 foot cord. Comes with One Year Limited Warranty.

Color: Black (BK)
Part #: 520BK

See previous page for more Convoi accessories.

1. POC Cart – Bin

Sturdy metal basket. Attaches anywhere along the trunk of the POC Cart in 2" increments with four easy-to-adjust knobs. Measures 8"d x 12.25"w x 3.75"h. Holds up to 40 lbs. Shown on pages 86 and 87.

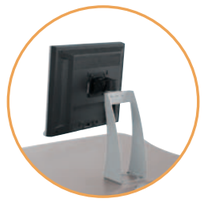
Color: Silver Metallic (SM)
Part #: 635SM

2. POC Cart – Equipment Hold-down

Secure your equipment to a shelf with this handy kit. First, attach an adhesive-backed buckle to one side of your equipment and another to the shelf, then feed the included strap through the buckles to secure. Kit includes four adhesive-backed buckles, two 8" Polypropylene straps and two alcohol pads for cleaning equipment and shelves. Shown on page 56.

Color: Black (BK)
Part #: 333BK

3. POC Cart – Flat Panel Monitor Mount



Secure your flat panel monitor to your Cart with this metal swivel-head mount. Choose single-monitor or dual-monitor design. The single-monitor version supports up to 22 lbs. The dual-monitor version supports a total of 22 lbs. and two monitors up to 17" across. The heavy-duty dual-monitor version supports up to two monitors (20" across) and a total of 44 lbs. It is 22" wide with mounting points in 1" increments. The Mount elevates the center of the monitor 13" above the shelf. Install by drilling through the shelf and secure with four bolts. Conforms to VESA 75mm and 100mm mounting standards. Shown on pages 86 and 87.

Color: Black (BK), Silver Metallic (SM)
Part #: Single – 615BK, 615SM; Dual – 617BK, 617SM; Heavy-Duty Dual – 627BK, 627SM

4. POC Cart – Mouse Shelf – Swing-out

Keep your mouse handy with this roomy (8"w x 9"d) swivel shelf. It rotates 360° so the mouse stows away under the shelf when not in use. Made of steel phenolic. Attaches with four screws. Shown on pages 86 and 87.

Color: Neutral Black Granite
Part #: 687BK

5. POC Cart – Shelves

A. Shelf – Equipment Large

Use this metal shelf for your larger equipment (CPUs, UPSs or printers). Attaches along the trunk of the Cart in 2" increments with 4 easy-to-adjust knobs. Includes adjustable strap. Holds towers up to 8" wide. Measures 24"w x 8.25"d. Shown on pages 86 and 87.

Color: Silver Metallic (SM)
Part #: 623SM

B. Shelf – Equipment Small

Metal shelf attaches anywhere along the trunk of the POC Cart in 2" increments with 4 easy-to-adjust knobs. Includes adjustable strap to keep your equipment secure. Measures 12"w x 7.25"d. Holds up to 50 lbs. Shown on pages 86 and 87.

Color: Silver Metallic (SM)
Part #: 621SM

1. Security Cart – Drawer

Roomy 4"h x 17"d metal drawer. Installs at any height inside the enclosure and pulls all the way out on 22" full-extension glides. 24" wide Drawer measures 18.25" wide on the interior. 30" wide Drawer measures 24.25" wide on the interior. Shown on pages 90 and 91.

Color: Black (BK), Silver Metallic (SM)
Part #: 24" wide– EDW24BK, EDW24SM;
30" wide–EDW30BK, EDW30SM.

3. Security Cart – Equipment Hold-down

Secure your equipment to a shelf with this handy kit. First, attach an adhesive-backed buckle to one side of your equipment and another to the shelf, then feed the included strap through the buckles to secure. Kit includes four adhesive-backed buckles, two 8" Polypropylene straps and two alcohol pads for cleaning equipment and shelves. Shown on page 56.

Color: Black (BK)
Part #: 333BK

2. Security Cart – Equipment Strap

Provides that extra level of insurance and safety for your hardware. The 1.5" wide heavy-duty belt cinches and buckles around your hardware. Clamps onto any shelf. Measures 8' long. Strap is Black, clamps are Black and Silver Metallic. Shown on page 59.

Color: Black (BK), Silver Metallic (SM)
Part #: 385BK, 385SM

4. Security Cart – Extension Tubes

Install Additional Upper Shelves above the cabinet on these Extension Tubes. Tubes have holes in 1" increments, so you can put the shelves wherever you want. Choose from six lengths: 5", 7", 12", 20", 24" and 36". Shown on page 90.

Color: Black (BK), Silver Metallic (SM)
Part #: See pricelist for a list of part numbers

5. Security Cart – Flat Panel Monitor Solutions

A. Flat Panel Monitor Arm

Mount your flat panel displays and raise them off the work surface. Move it near you when you need it, away when you don't, with light fingertip pressure. Made of steel, the Arm has a vertical travel range of 16" in height and rotates 360°. Adjusts at three joints, and tilts your display up to 200°. Can be mounted two ways: drill through option or C-clamp to any shelf edge. Extends 22" from where it is mounted. Includes integrated cable management. Conforms to VESA 75mm and 100mm mounting standards. Shown on pages 26 and 91.

Flat Panel Monitor Arm: Holds monitors 10 to 22 lbs.

Flat Panel Monitor Arm – Super: Holds monitors 18 to 42 lbs.

Color: Black (BK), Silver Metallic (SM)
Part #: Standard – LCDBK, LCDSM; Super – LCD2BK, LCD2SM

B. Flat Panel Monitor Mount

Secure your flat panel monitor to your Cart with this metal swivel-head mount. Choose single-monitor or dual-monitor design. The single-monitor version supports up to 22 lbs. The dual-monitor version supports a total of 22 lbs. and two monitors up to 17" across. The heavy-duty dual-monitor version supports up to two monitors (20" across) and a total of 44 lbs. It is 22" wide with mounting points in 1" increments. The Mount elevates the center of the monitor 13" above the shelf. Install by drilling through the shelf and secure with four bolts. Conforms to VESA 75mm and 100mm mounting standards. Shown on page 86.

Color: Black (BK), Silver Metallic (SM)
Part #: Single – 615BK, 615SM; Dual – 617BK, 617SM: Heavy-Duty Dual – 627BK, 627SM

See next page for more Security Cart accessories.

Accessories

Drill Symbol indicates that you will need to drill a hole in a shelf for installation.

6. Security Cart – Handle – 16"

Move the Cart just where you need it with this 16" wide Handle. The Handle extends 5" from the side of the Cart when installed and is angled for easy maneuverability. Attaches to vertical leg with four screws. Shown on pages 90 and 91.

Color: Black (BK), Silver Metallic (SM)
Part #: EHBK, EHSM

7. Security Cart – Keyboard Solutions

A. Keyboard and Mouse Caddies – B

The height-adjustable, retractable caddy tilts 20° negative or 20° positive, perfect for shared workstations and for individual users who want to change typing position throughout the day. The keyboard surface is 19.5" wide, 8" deep and comes with a padded wrist support for comfort. Keyboard surface adjusts from even with your work surface to 6" below. Available with mouse on left or right. Steel phenolic surface is neutral granite finish. Shown on page 90.

Color: Neutral Black Granite
Part #: (mouse on right) UKMCBK, (mouse on left) UKMCLBK

B. Keyboard Drawer 20"

Pull your keyboard out when you want to use it, hide it away when you're done. Slides on smooth ball bearing glides. Can be assembled to fit 3" to 4" below your large shelf surface so there is plenty of room for your knees. The 20" wide Drawer measures 20"w x 11"d x 3.5"h. Extends 10" out from the surface you are mounting it to. Shown on pages 58 and 59.

Color: Black (BK), Light Grey (LG)
Part #: 20BK, 20LG
Compatibility: Does not work with the 24"w Security Cart.

8. Security Cart – Shelves

A. Shelf – Inside Metal

Expand the storage capacity by adding these Metal Shelves. The steel Shelves are 16.75" deep. The Shelf for the 24" wide Cart measures 19.25" wide. The Shelf for the 30" wide Cart measures 25.75" wide. Shown on pages 90 and 91.

Color: Black (BK), Silver Metallic (SM)
Part #: 24" wide – EMS24BK, EMS24SM
30" wide – EMS30BK, EMS30SM

B. Shelf – Upper

Create storage space above the cabinet by adding these laminated wood Shelves to Extension Tubes. Shelves are 21.25" deep. The Shelf for the 24" wide Cart measures 23.5" wide. The Shelf for the 30" wide Cart measures 29.5" wide. Shown on page 90.

Color: Black (BK), Light Grey (LG)
Part #: 24" wide – EAS24BK/BK, EAS24SM/LG
30" wide – EAS30BK/BK, EAS30SM/LG

See previous page for more Security Cart accessories.

1. Rack – Casters – 5"

Four 5" plate mount casters are easy to install and move smoothly over bumpy surfaces. Two locking and two directional. Add the Rack Handle for easy steering. Shown on page 92.

Part #: 871RT

2. Rack – Door

Strong steel door has perforations to allow plenty of ventilation. Several mounting options (front or back, opening left or right) mean you can install it to meet your needs. Ships assembled, just add three supplied brackets and lift door into place! Shown on page 92.

Color: Black (BK), Silver Metallic (SM)
Part #: 12 Unit – 847BK, 847SM
16 Unit – 846BK, 846SM
24 Unit – 848BK, 848SM
36 Unit – 849BK, 849SM

3. Rack – Drawer

This large metal drawer pulls all the way out on 22" full-extension glides. Drawer holds up to 75 lbs. Interior dimensions are 7"h x 19"w x 22"d. Two pairs of Tapped Rails (sold separately, see #8) are required for installation of this Drawer. Shown on page 92.

Color: Black (BK), Silver Metallic (SM)
Part #: 850BK, 850SM

4. Rack – Equipment Hold-down

Secure your equipment to a shelf with this handy kit. First, attach an adhesive-backed buckle to one side of your equipment and another to the shelf, then feed the included strap through the buckles to secure. Kit includes four adhesive-backed buckles, two 8" Polypropylene straps and two alcohol pads for cleaning equipment and shelves. Shown on page 56.

Color: Black (BK)
Part #: 333BK

5. Rack – Face Plates

Steel plates cover open areas and install with just four screws. Shown on page 92.

Color: Black (BK), Silver Metallic (SM)
Part #: Small (1 Unit) FPSBK, FPSSM
Medium (2 Unit) FPMBK, FPMSM
Large (3 Unit) PLBK, FPLSM

6. Rack – Handle

Add this angled Handle for easy steering! The steel Handle mounts to the front or back of the Rack System at a comfortable height. Does not coexist with the Door. Shown on page 93.

Color: Black (BK), Silver Metallic (SM)
Part #: 852BK, 852SM

7. Rack – Panel Solutions

A. Back Panel

Perforated steel panel allows plenty of ventilation. Secure tooled entry, attaches with six screws. Large cord grommets route cables conveniently into or out of the Rack Unit. Shown on page 93.

Color: Black (BK), Silver Metallic (SM)
Part #: 12 Unit – 840BK, 840SM; 16 Unit – 843BK, 843SM;
24 Unit – 841BK, 841SM; 36 Unit – 842BK, 842SM

B. Bottom Panel

Use this slotted steel bottom as a base shelf for storage or to protect equipment from damage. Rests on the bottom of the Rack frame. Supports up to 75 lbs. evenly distributed. Shown on page 92.

Color: Black (BK), Silver Metallic (SM)
Part #: 24" deep – 868BK, 868SM; 30" deep – 869BK, 869SM

C. Side Panels

The ventilated steel panels allow plenty of air flow to keep your equipment cool, tooled entry with seven screws protect the contents. Hand grips on the 24 Unit and 36 Unit ease installation. Available in four heights and two depths. Shown on page 92.

Color: Black (BK), Silver Metallic (SM)
Part #: See the pricelist for a list of part numbers.

7. Rack – Panel Solutions (continued)

D. Top Panel

Add this solid steel Top for added security and storage space. Attaches by 8 screws. Supports up to 75 lbs. evenly distributed. Shown on page 92.

Color: Black (BK), Silver Metallic (SM)
Part #: 24" deep – 865BK, 865SM; 30" deep – 866BK, 866SM

8. Rack – Rails – Tapped

Attach these rails to the front post to support the front of your equipment; attach to Floating Panels to support the back of your equipment. Available in 10-32 thread or Dell/HP standard (available in 4 Unit length – Part # 4UDC). Two pairs of Tapped Rails are required for installation of most accessories.

Color: Zinc Plated
Part #: The threaded options: 4 Unit – 4UEIA,
12 Unit – 12UEIA, 16 Unit – 16UEIA, 24 Unit – 24UEIA,
36 Unit – 36UEIA; The Dell/HP option - 4UDC

9. Rack – Shelves

A. Shelf – Fixed

Store non-rack-mountable equipment inside your Rack System. Steel Shelf mounts to Tapped Rails (sold separately) with 4 screws. Shelves support up to 75 lbs. Two pairs of Tapped Rails (sold separately, see #8) are required to install this Shelf. Shown on page 92.

Color: Black (BK), Silver Metallic (SM)
Part #: 851BK, 851SM

B. Shelf – Pull-out

This steel Shelf pulls out 22" on full-extension glides and supports up to 75 lbs. The perfect place for your keyboard and mouse. Two pairs of Tapped Rails (sold separately, see #8) are required to install this Shelf. Shown on page 92.

Color: Black (BK), Silver Metallic (SM)
Part #: 853BK, 853SM

It's fun to creatively tackle the challenges.

I remember when Jared in our Customer Service department took a call from a cranky elderly woman who lived in a remote part of California. She had just opened her new AnthroCart, and was unable to put it together. She demanded that she be able to return it.

We knew she really wanted it, so Jared asked if she had any relatives we could call who could help walk her through the assembly. The answer was no. Jared then called the local fire department in the hope they might go out to help her. On hearing who the gal was, they immediately said no (small community, big reputation).

Finally, Jared contacted the local Boy Scout Troop to see if they wanted to give it a shot. They agreed, and the story ended happily for all.

– Cathy, Co-founder
